

# *Giving Thanks*

With six Old Grey Muzzle Tours and 113 dogs visited under his belt, Dr. Waters has certainly gone the extra mile. No researcher had ever attempted to study exceptional longevity in pet dogs until Dr. Waters jumped in to lead this advance — a search to unlock the secrets of highly successful aging. After a decade of dedication, the message to Dr. Waters and his team should be a simple one:

## THANK YOU FOR YOUR WORK

Take this opportunity to fuel the research by expressing your personal thanks and your financial support. You can use this page to personalize your note, capturing how the work has inspired you. Each person enclosing a check of 50 dollars or more to support the research will receive a beautiful limited edition Old Grey Muzzle Tour dog leash.

Please make your check payable to Gerald P. Murphy Cancer Foundation
